

Hailey CAN be Adventurous

In her bright orange gear and power wheelchair, Hailey is a force of nature. Spending time outdoors is important to the Hosler family. That's why they came to Gillette Children's Specialty Healthcare after Hailey was diagnosed with spina bifida. The Gillette team makes sure Hailey has the independence she needs to join her family on adventures in the woods.

The medical care at Gillette propels Hailey forward—no matter how muddy the terrain!

Gillette is proud to help kids like Hailey discover what they CAN do.
